**Using this form:**

The purpose of this form is to aid in flight preparation during LIFUS training.
It may be used in electronic or in printed format.
Use of this form is mandatory for trainees undertaking LIFUS training; it is however accepted that last-minute roster changes may preclude this.
Completed sections should be discussed with the trainer prior to departure.
**It is worth noting that it may take up to 3 hours to prepare appropriately for a flight to a new destination or through a new area/region.**
Line pilots can use the form should they wish to.

## Preparation

| ☑ | FCI/FCN | LIDO mBriefing | LIDO mPilot | CCI/AOI | ASR | Flight Pulse |
|---|---|---|---|---|---|---|
| | OM-C Area Brief | LIDO RSI | LIDO CRAR | NOAA Space WX | Layover Brief | |

| Flight Number | Callsign | Registration | Engines |
|---|---|---|---|
| | | | |

| | IATA/ICAO | STD/ETA UTC | STD/ETA LT | COMP FREQ |
|---|---|---|---|---|
| DEP | | | | |
| ARR | | | | |
| ALTN | | | | |

## Departure

| **Weather** | | |
|---|---|---|
| **Flight phase** | **Threat(s)** | **Mitigation(s)** |
| Pre-flight<br>*E.g., MEL/CDL, Bulletins, Pax/Cabin requirements.* | | |
| Taxi<br>*E.g., Taxiway closures, speed limits, apron restrictions.* | | |
| Take-off<br>*E.g., Performance, density altitude/TAS, NADP.* | | |
| Departure<br>*E.g., SID, Climb out* | | |

Other Notes:

**En-route Airports**

*Consider the use of the 'Can we…' model. Can we get there (range), do the approach and landing (weather vs approach minima), stop (consider most limiting LDA v LDR en-route), turn-around (ground operations and services), go-around (performance), Plan B (options).*
